NEW REGULATOR VALVE APPROVED FOR USE IN KELLY AEROSPACE B3500 SERIES HEATERS INSTALLED IN PIPER PA-31-350

Kelly Aerospace, Inc. has released a new regulator shut-off valve for use in Kelly Aerospace P/N 65D80-1, -2, & -3 cabin heaters. The new valve part number P23D04-7.5 replaces old valve P/N A23D04-7.5 and is approved for use in the heater assemblies listed. The new regulator shut-off valve incorporates design features that improve regulator performance and is rated for a higher operational pressure of 60 psig.

For questions concerning installation eligibility and availability of the new regulator shut-off valve, please contact Kelly Aerospace, Technical Service Department at 334-227-8306.
